

Department of Oral and Maxillofacial Radiology

Introral examination

Specialist examination

Consultant examination

Consultant specialist examination

Periapical radiograph, each (analogue/digital)

Occlusal radiograph, each

Extra-oral radiograph each

Orthopantomograph (Panoramic) radiograph

Cephalometric radiograph, each

Antero-posterior cephalometric radiograph, each

Hand-Wrist radiograph, each

Temporomandibular joint (TMJ) radiograph, each

Sialography, (one-sided)

Sialography (two sides)

Bite-wing radiograph

Determination of Saliva Flow Rate and Buffering Capacity

Microbiological Analysis in Saliva

Vitality Control (per tooth)

Department of Restorative Dentistry & Endodontics

Amalgam filling, one side

Amalgam filling, two sided

Amalgam filling, three sided

Inlay filling, occlusal (composite)

Inlay filling, two-sided (composite)

Inlay filling, three-sided (composite)

Composite filling, anterior tooth

Composite filling, posterior tooth

Light cure composite filling, anterior tooth

Light cure composite filling, posterior tooth, one-sided

Light cure composite filling, posterior tooth, two-sided

Light cure composite filling, posterior tooth, three-sided

Pulp Capping

Amputation

Root canal treatment, single canal

Root canal treatment, two canals

Root canal treatment, three canals

Root canal treatment, each additional canal

Black 5 (Cervical) filling, amalgam

Black 5 (Cervical) filling, glassionomer

Black 5 (Cervical) filling, composite

Glass ionomer filling

Pin-retained restoration

Intra-canal post application

Intra-canal post application or removal

Intra-canal fiber post application

Treatment of dentin hypersensitivity, half jaw

Treatment of dentin hypersensitivity, complete jaw

Treatment of dentin hypersensitivity, single tooth

Gangrene or periapical lesion treatment

Root canal treatment of tooth with gangrene or periapical lesion, single canal

Root canal treatment of tooth with gangrene or periapical lesion, two canals

Root canal treatment of tooth with gangrene or periapical lesion, three canals

Extirpation

Onlay

Filling (Restoration) Repair

Filling Removal (singletooth)

Root Canal Filling Removal (single canal)

Root Canal Filling Removal (two canals)

Root Canal Filling Removal (threecanals)

Composite veneer

Retreatment (single canal)

Retreatment (two canals)

Retreatment (three canals)

Teeth Whitening (Single tooth)

Teeth Whitening (Lower-Upper Jaw)

Devital Bleaching

Root canal irrigation

Diastema Closure

MTA application

Fiber Reinforced Composite Restoration

Removal of broken instrument from the root canal

Intra-Canal Resorption Treatment (Single Canal)

Intra-Canal Resorption Treatment (Two Canals)

Intra-Canal Resorption Treatment (Three Canals)

Crown Fracture Treatment

Department of Pedodontics

Fissure sealing (Sealant applicaiton)

Local fluoride application (Caries prophylaxis), half jaw

Prefabricated crowns

Prefabricated zirconium crowns

Space maintainer, fixed

Space maintainer, removable

Child denture, partial, acrylic (single jaw)

Child denture, complete (single jaw)

Strip crown

Kompomer filling, each tooth

Endodontic management of open apex tooth
--

Conscious sedation

Deep sedation

Fiber reinforced fixed space maintainer

Castillo Moraks Appliance

Treatment of avulsed tooth

Lateral/Extrusion/Intrusion Treatment

Resin infiltration application

Department of Prosthodontics

Acrylic complete denture, single jaw

Acrylic partial denture, single jaw

Complete denture with metal framework

Partial denture with metal framework
Precision attachment-retained removable partial denture
Implant supported removable denture
Acrylic immediate denture
Rebasing
Soft acrylic relining, permanent
Soft acrylic relining, temporary
Relining
Repair of broken or fractured denture
Addition of clasp
Metal framework repair
Tooth addition to a removable denture
Gnathology, TMJ-muscle examination (Occlusion check)
Occlusal adjustments
Night guard (for bruxism)
Pinlay and its variants
Cast crown
Veneer crown, acrylic
Veneer crown, ceramic
Pivot or post-core
Milling technic on crowns
Jacket crown, acrylic
Jacket crown, all ceramic
Telescope primary crown, with coping
Maryland (Adhesive) Bridge
Roach bridge
Temporary crown
Crown removal
Recementation of fixed denture
Crown, bridge repair
Cleft palate denture (over-denture)
Preoperative appliance for newborn
Velum involved speech appliance

Temporary obturator (Surgery plates)
Prosthodontic treatment for simple jaw defects
Prosthodontic treatment for complicated jaw defects
Face prosthesis
Crown with precision attachment
Removable periodontal denture
Fixed periodontal denture
Laminate Veneer (Composite)
Zirconium crown
Implant supported crown, bridge
Implant supported complete denture
Implant supported partial denture
CAD-CAM restoration
Ceramic Inlay Filling (One Sided)
Ceramic Inlay Filling (Two Sided)
Ceramic Inlay Filling (Three Sided)
Laminate Veneer (Acrylic)
Laminate Veneer (Ceramic)
Adhesive Cementation
Cast Post Application and Removal
Implant Guide
Temporary Partial Denture
Temporary Complete Denture
Implant retained tissue dentures
Computer aided manufactured surgical guide (For implant surgery)

Department of Oral And Maxillofacial Surgery

Tooth extraction
Tooth extraction with regional anesthesia
Complicated tooth extraction
Complicated tooth extraction with regional anesthesia
Unerupted mucosa retained tooth extraction
Unerupted bone retained tooth extraction
Unerupted canine-premolar tooth extraction

Supernumerary tooth extraction
Apical resection
Epulis Operation
Sinus Lifting
Fibroma Surgery
Operculectomy
Alveolitis surgery treatment
Bleeding prevention
Alveoplasty
Cyst surgery, minor
Cyst surgery, major
Osteomyelitis, Brodie, Osteoradionecrosis operation
Jaw luxation (simple)
Vestibuloplasty surgery
Sinusplasty
Hard Tissue Grafting
Soft Tissue Grafting
Biopsy
Abscess drainage, extraoral/intraoral
Physiotherapy (Infrared) (Low dose laser application for biostimulation)
Single-multi rooted tooth reimplantation
Single- multi rooted ototransplantation
Subperiosteal implant
Intraosseous implant application
Torus operation
Odontogenic tumor operation, small
Odontogenic tumor operation, large
Surgical treatment of neuralgia
Surgical Treatment of Oroantral Fistula
Injection
Premedication
Exposure of teeth for orthodontic treatment
Temporomandibular joint mechanotherapy

Temporomandibular intra-articular injection, unilateral
Arthrocentesis, unilateral
Local anesthesia, infiltration
Local anesthesia, regional
Fracture (Simple)
Fracture (Complicated)
Stone Removal from the Salivary Gland Duct
Open Joint Surgery (Unilateral)
Genioplasty
Segmental Osteotomy
Osteotomy (Unilateral)
Osteotomy for Alveolar Distraction
Dental Implant Removal
Miniplate and screw removal
Corticotomy
Corticotomy (for expansion)
Soft Tissue Laser Applications
Hard Tissue Laser Applications
Retrograde Filling
TMJ Prosthesis fossa component application unilateral
TMJ Prosthesis ramus component application unilateral
Intraoral otogenic graft removal
Intraoral cryotherapy treatment
Marsupialisation
Department of Periodontology
Periodontal abscess treatment
Detertrage (Scaling)
Subgingival curettage
Gingivectomy
Flap operation
Hemisection (Root amputation)
Free gingival graft
Coronal sliding or sliding flap

Periodontal splint, temporary
Periodontal splint, permanent
Extreme tooth sensitivity treatment
Frenectomy
Gingivoplasty
Biomaterial application
Tunnel operation
Membrane application
Connective tissue graft
Peri-Implantitis Treatment
Prf/Prp Application
Implant gingiva former application
Department of Orthodontics
Cephalometric radiograph analysis
Antero-posterior cephalometric radiograph analysis
Computerized cephalometric radiograph analysis
Computerized large TMJ function test
Computerized muscle tone analysis (EMG)
Determination of bone age
Orthodontic photography
Orthodontic photo analysis
Orthodontic model making
Orthodontic model analysis
Orthodontic treatment of Angle class (Class 1) anomalies
Orthodontic treatment of Angle class (Class 2) anomalies
Orthodontic treatment of Angle class (Class 3) anomalies
Short-term orthodontic treatment
Preventive orthodontic treatment (Tongue screen)
Reinforcement therapy
Reinforcement device (Hawley appliance)
Fixed retainer (Lingual retainer)
Appliance fabrication

Appliance production involving two jaws (Activator)

Extraoral appliance application (Headgear-face arch)
Extraoral appliance application (Chin cap-chin cap)
Reconstruction of lost appliance
Appliance repair
Rapid maxillary expansion appliance
Arch Wire application
Band (Bracket) application
Cephalometric surgery plan
Occlusal surgical splint
Orthodontic surgery Arch (single jaw)
Application of the displaced band
Application of the displaced band or bracket
Debonding of band or bracket
Orthodontic treatment of open bite
Screw Application
Wilson Arch Application
Fixed Functional Appliance Application
Reverse Headgear
Straight Arch Wire Application (Single Jaw NITI Wires)
Wire Application with bending (Single Jaw)
Segmental Arch or Torque Arch Application
Lingual Bracket Application (Single Tooth)
Lingual attachment application
Lingual Arch
Nance Appliance
T.M.J. Splint
Model Set-Up
Positioner Making
Transferring Orthodontic Models to Articulator with Face-Bow
Model Surgery
Plaster Face Mask
Eruption Guidance
Pendex Appliance

Computerized Occlusion Analysis (T-Scan Analysis)
Surgical Operation Splint
Three Dimensional Digital Orthodontic Model Preparation (Single Jaw)
Trauma Splint
Obstructive Sleep Apnea Appliance
Plate Placement for Orthodontic Anchorage
Orthodontic Transparent Plate Application
Three Dimensional Solid Modeling
Rebonding of Broken Orthodontic Attachment
Removal of fractured abutment
Replacement of the broken arch wire
Interproximal reduction (per tooth)
Finger appliance
Distraction surgery planning
External distractor intraoral device
Quad Helix
Palatal crib
Place holder
Three dimensional digital orthodontic analysis
Maintaining the impacted tooth
Refabrication of broken appliance
Orthodontic low dose laser application
Early orthodontic treatment beginning phase
Early orthodontic treatment completion phase
Initial Stage of Class 1 Orthodontic Treatment
Treatment Phase of Class 1 Orthodontic Treatment
Reinforcement Phase of Class 1 Orthodontic Treatment
Initial Stage of Class 2 Orthodontic Treatment
Treatment Phase of Class 2 Orthodontic Treatment
Reinforcement Phase of Class 2 Orthodontic Treatment
Initial Stage of Class 3 Orthodontic Treatment
Treatment Phase of Class 3 Orthodontic Treatment
Reinforcement Phase of Class 3 Orthodontic Treatment

Initial Stage of Orthodontic Treatment in Orthognathic Surgery
Treatment Stage of Orthodontic Treatment in Orthognathic Surgery
Reinforcement Stage of Orthodontic Treatment in Orthognathic Surgery
Cleft Lip - Palate or Cleft Palate Postpartum Reshaping Treatment
Cleft Lip - Palate or Cleft Palate Mixed Dentition Orthodontic Treatment
Cleft Lip - Palate or Cleft Palate Permanent Dentition Orthodontic Treatment
Acrylic full denture, single jaw
Acrylic parsiyel denture, single jaw
Full denture with metal base, single jaw
Partial denture with metal base, single jaw
